To be honest, every moment is my best moment. I will never miss any sessions as I try to learn as much as I can! I like to study in RDI centre because it is convenient. I also found that the tutors, office staff and the students are very helpful and friendly. I would like to take this opportunity to thank all the tutors for their patience and valuable tutorial's As a part time student with RDI/Bradford, I am gifted with all the caring and experienced tutors who have been walking me through the difficult moments during the course of my study!

The best moment is :

- (1) the assignment is easy to analysis, easy to research and then complete on time
- (2) the notes easy to remember, can prepare enough for examination
- (3) after examination, is the best moment date
- (4) when open the result letter, it passed
- (5) when sir give some guideline for examination it make confidence to examination because busy at work if I have some guideline will be better, because no time for retake the examination.
- (6) before examination can fully understand all materials
- (7) After I can study University of Bradford, my English is improved, the analysis skill is better than before.

In overall I am satisfied with what has been offered by the course so far. During the studying process I have known many great friends and we will help each others unconditionally. A friend in need is a friend in deed :)

**Worst moment studying
with RDI:**

The worse situation was moving from one place to another places to attend classes, this had made us so confused and ended up arriving at the wrong spot. However, RDI has recently centralized its resources grouping all its classes in one place since the relocation. Thanks to RDI for being so considerate!!

RDI provides a contemporary setting which enhances my learning experience. The flexible course schedule and dedication of highly qualified tutors helps me manage my studies more effectively. The course modules teach some of the latest theories and applications, which allow me to gain insight and confidence in performing my full-time job. The administration provided by RDI staff certainly deserves thumbs up for their efficiency and willingness to support my needs. Overall, I think RDI offers a professional environment in which to pursue a highly recognised UK degree without ever having to leave Hong Kong

I find studying through RDI worry and stress free since dealing with university route is quite complicated since channels are massive, with RDI, they have the expertise and experience of dealing with varieties of issues and obviously they know more than us which person deals with certain issues. In other words they shoulder the burden of communication channels within the university for you and makes university life easier as expected

**Worst moment studying

I enjoy the most the staff supports from RDI. Studying while having a job isn't easy. RDI has everything well organized and easily accessed. My working hours are unstable but I still manage to get the information I missed from staff and tutorials rearranged, so that I can finish my assignments and take exams on time and don't feel left behind

As I live in Taiwan, I am in a different time zone than my UK University and one of the best things about RDI is having a Hong Kong branch here in Asia. This means that inquiries can be dealt with very quickly. In particular, Mrs. Doris Ng has been extremely efficient at answering queries and has been very patient. Even when there was a mix up at my Taiwan bank in wiring a payment to RDI Hong Kong, she very patiently gave answers to a number of questions and we managed to sort the issue out very quickly. Such back up is extremely important as students working online can feel isolated. Less time is wasted than having to wait for a reply from the UK, which is 8 hours behind us in time, potentially wasting a day's study time if there is a problem

**Worst moment studying
with RDI:**

I found that there was some initial confusion in registering with the University, as the system asked me to pick a module from a list. However, the list was not populated. On a separate occasion one of the online assessments in the UDo introduction did not work and I had to report it. Obviously, these are only small points, but when working online from a long distance away it can be frustrating

The best moment studying with RDI Centre is when I grow from the stage of knowing nothing about psychology to someone who is now passionate with psychology. The changes are contributed to the best support from the module tutor and the interaction amongst students. Being an online student, it is not easy to master all the subjects as it requires high level of independency. However RDI learning has made my life easier. It will help to make my dream as being a psychologist comes true one day
